

Guide 2024

Nestled in the volcanic hills around Straden, the family business cultivates 30 hectares of vineyards. With a great deal of commitment, it has been able to establish itself as one of the leading wineries in the region in recent years. Walter Frauwallner and his wife Petra are the third generation to run the family business. The two are convinced of the influence of the terroir on the quality of the wines and only process grapes from Vulkanland Steiermark. The focus is on wines with a clear character of origin. Since 2018, the winery has also been a member of the quality winegrowers' association for Styrian terroir and classic wines.
